Preparatory and Recertification Programs for the BCPP

Certification as a Board Certified Psychiatric Pharmacist (BCPP)

In pharmacy, as in all medical practice, specialization has become essential to optimal care. Targeted and verified clinical knowledge and skills meet the needs of patients, employers, payers, providers and peers. Board certification through BPS—the Board of Pharmacy Specialties—is key to fostering pharmacists' inevitable evolution from order-filling agents to integral members of the patient care team. Certification is a practical means of determining which pharmacists are qualified to contribute at these advanced practice levels.

BPS provides credentialing of psychiatric pharmacists through the Board Certified Psychiatric Pharmacist (BCPP) designation. As a member of a multidisciplinary treatment team, the psychiatric pharmacy specialist is often responsible for optimizing drug treatment and patient care by conducting such activities as monitoring patient response, patient assessment, recognizing drug-induced problems, and recommending appropriate treatment plans. You can learn more about the BCPP designation at bpsweb.org. This information piece and the CPNP website at cpnp.org/bcpp provide additional information on the recertification education products available to BCPPs to maintain their credentials.

Additional information and registration available at cpnp.org/bcpp

BCPP Recertification Requirements

Recertification assures the public and the profession that BPS-certified pharmacist specialists undergo periodic evaluation to verify that their knowledge and skills are maintained at a level comparable to those being newly certified. BPS requires all board certified pharmacist specialists to recertify every seven (7) years. To be recertified, an individual must:

- Achieve a passing score on the 100-item multiple choice BPS recertification examination, based on the content outline of the certification examination; OR
- Earn 100 hours of continuing education credit provided by a professional development program approved by BPS.

The only BPS certified provider of BCPP recertification education is the College of Psychiatric and Neurologic Pharmacists (CPNP).

Grant Support Provided to CPNP By

Genentech

A Member of the Roche Group

This activity is supported by an educational grant from Lilly USA, L.L.C. For further information concerning Lilly grant funding, visit www.lillygrantoffice.com.

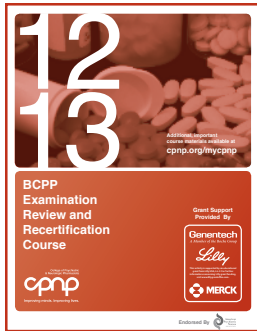

Review Course
Endorsed By

CPNP BCPP Recertification Products

CPNP BCPP Examination Review and Recertification Course

Whether a certification candidate or a currently certified individual, the goal of the Review Course is to assist the practitioner in developing and maintaining contemporary knowledge and skills at the psychiatric pharmacy specialty level. The Review Course is not designed to develop more in-depth “subspecialty” knowledge. Course content is structured to provide a comprehensive review of the three psychiatric pharmacy domains specified by the Specialty Council in the current edition of the BPS Candidate’s Guide. Inclusion of the Review Course as part of the recertification program is critical in ensuring the BCPP has systematically reviewed and assessed his/her core knowledge in the psychiatric specialty practice.

Special Notes:

- BCPPs recertifying via continuing education are required to complete the Review Course a minimum of once during their 7-year recertification cycle.
- BCPPs recertifying via continuing education can use the Review Course a maximum of twice for recertification credit during their 7-year recertification cycle.
- The Review Course is revised and released every other year on the even year (2012, 2014...). Given this revision cycle, individuals cannot repeat the current edition of the Review Course for BCPP Recertification or ACPE credit.

2012 Details:

- **Format:** Home-study course available in the form of a preparatory workbook or as a recertification product
- **Credit:** 20.0 contact hours of ACPE and BCPP Recertification credit for recertifiers
- **Release Date for 2012 Examination:** January 18, 2012
- **Examination Deadline:** July 25, 2012
- **Statement of Credit:** Reported 30 days after the examination deadline to BPS and CPE Monitor at mycpemonitor.net

CPNP BCPP Recertification Literature Analysis

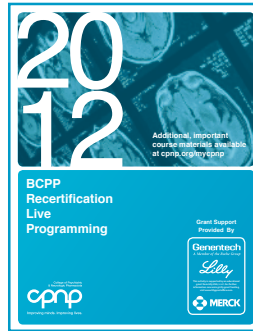

This programming involves review and analysis of current literature.

2012 Details:

- **Format:** Home-study program
- **Credit:** 10.0 contact hours of ACPE and BCPP Recertification credit
- **Release Date:** March 1, 2012
- **Examination Deadline:** August 22, 2012
- **Statement of Credit:** Reported 30 days after the examination deadline to BPS and CPE Monitor at mycpemonitor.net

CPNP Recertification Live Programming (also available as an online home-study program)

Five hours of live recertification approved programming is presented and recorded onsite at the 2012 CPNP Annual Meeting. Registrants can choose to attend programming live on-site or complete the programming as a home-study component accessing speaker presentations and audio online at cpnp.org/mycpnp.

2012 Details:

- **Format:** Live at CPNP Annual Meeting (April 29-30, 2012 in Tampa, Florida) or via home-study
- **Credit:** 5.0 contact hours of ACPE and BCPP Recertification credit
- **Release Date:** April 29, 2012 for live programming
- **Release Date:** June 6, 2012 for online home-study programming
- **Examination Deadline:** October 24, 2012
- **Statement of Credit:** Reported 30 days after the examination deadline to BPS and CPE Monitor at mycpemonitor.net

The College of Psychiatric and Neurologic Pharmacists is accredited by the Accreditation Council for Pharmacy Education as a provider of continuing pharmacy education.

BCPP Recertification Frequently Asked Questions

Review your current BCPP transcript at cpnp.org/bcpp/transcript

Who provides BCPP recertification programming?

BPS has approved CPNP as the sole provider of BCPP recertification programming.

What recertification programming is available through CPNP annually?

Each year CPNP provides 35 hours of BCPP recertification programming through three products as follows:

- BCPP Examination Review and Recertification course available via home-study for 20 hours of credit.
- BCPP Literature Analysis component available via home-study for 10 hours of credit.
- BCPP Live/Online Programming available at the CPNP Annual Meeting or via home-study for 5 hours of credit.

Is there an examination associated with the CPNP recertification hours?

An assessment piece is required by BPS for the approved recertification programs. Each program has its own examination. Examinations are due approximately 5-6 months after release date and can only be completed online in the CPNP testing center at cpnp.org/mycpnp. Candidates must achieve the determined cut-off score to successfully complete the examination(s). Cut-off scores are determined annually using a panel of experts.

Why aren't other hours within the CPNP Annual Meeting allowed to qualify as recertification credits?

The Annual Meeting is generally thematically-based not curricular-based. Recertification programming undergoes a specific design, planning and implementation process not applied to the Annual Meeting programming.

I annually attend other educational programs. Can they be qualified for recertification credits?

No. These providers have not been approved by BPS as recertification providers and would have to go through the process of responding to BPS' request for proposal to obtain such approval. A key difference in the CPNP offerings is that the recertification programming is curricular-based and an assessment of the attendee's comprehension of and competence with the material presented is included. Other educational programs would have to undergo a similar design process and develop assessment procedures consistent with BPS requirements for recertification credit.

How do I know how many recertification hours I have accumulated? *My BCPP* is CPNP's newest service to BCPPs. Available from the BCPP tab on the CPNP home page, through *My CPNP*, or at cpnp.org/bcpp/transcript, this comprehensive, user-friendly transcript center gives you real-time access to a listing of recertification programming you have successfully completed within your current 7-year certification cycle. ASHP data (a provider through 2007) is also included in your *My BCPP* transcript.

You can also access your personal certification records at *My BPS* available at bpsweb.org. BPS is the official record keeper and updates their records in the spring of each year. BPS can be reached for confirmation of hours or for other questions at:

- Phone: 202-429-7591
- Email: bps@aphanet.org
- Web: bpsweb.org/mybps

Do recertification credits also qualify for ACPE credits? Yes, recertification programming also meets ACPE standards and ACPE credit is available. Statements of Credit are available to registered participants via CPE Monitor at mycpemonitor.net.

How do I meet the required 100 hours of recertification continuing education over my 7-year recertification cycle? There are 3 recertification products offered annually that you can use to meet your 100-hour requirement. You are required to take the BCPP Examination Review and Recertification Course a minimum of once but no more than twice during the 7-year cycle. The chart below describes what is available to you annually and cumulatively over a 7-year recertification cycle.

BCPP Recertification Credit Available Over a 7-Year Period				
Year	BCPP Examination Review and Recertification Course	BCPP Recertification Live/Online Programming	BCPP Recertification Literature Analysis	Total Contact Hours Available Per Year
2012	20	5	10	35
2013	20	5	10	35
2014	20	5	10	35
2015	20	5	10	35
2016	20	5	10	35
2017	20	5	10	35
2018	20	5	10	35
Maximum Hours Available	40 (maximum of 2 Review Courses)	35	70	145

BCPP Preparatory and Recertification Product Order Form

Registration also available online at cpnp.org/bcpp

Registration for BCPP Examination Review and Recertification Course:

- This course is provided as a home-study program.
- The no credit purchase option is recommended for those preparing for the BCPP examination. Registrants receive the workbook and online access to speaker presentations but no ACPE or recertification credit.
- The for credit purchase option provides registrants with online access to speaker presentations, the workbook and access to the Recertification testing center. Successful completion of the examination provides registrants with 20.0 contact hours of ACPE and Recertification credit.

Registration for BCPP Recertification Literature Analysis Includes:

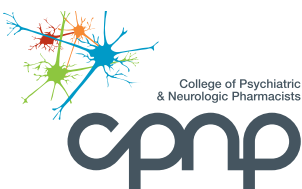

- Access to the Recertification testing center.
- The workbook containing the required readings or links to the required readings needed to prepare for the online examination.
- 10.0 contact hours of ACPE and Recertification credit achieved by successfully completing the online CPNP recertification examination.

Registration for BCPP Recertification Live Programming Includes:

- Access to the Recertification testing center.
- Online access to the speaker presentations.
- 5.0 contact hours of ACPE and Recertification credit achieved by successfully completing the online CPNP recertification examination.
- Note: Programming may be taken live at the CPNP Annual Meeting or as an online home-study program. Both methods require completion of the required online examination.
- Note: Registrants pursuing recertification credit via the live programming must also be registered for the CPNP Annual Meeting either as full or partial registrants (if attending select days).

Shipments of the Review Course and Literature Analysis products within the US are made via USPS media mail with anticipated delivery within 5-10 business days. For quick ship (2-3 business days) or international shipments, payment of extra shipping fees is required.
