The College of Psychiatric and Neurologic Pharmacists (CPNP) is proud to be the sole provider of preparatory and recertification products for the Board Certified Psychiatric Pharmacist. CPNP works hard to bring you the highest quality products possible by ensuring:

- Content is developed and managed by an editorial board of experienced Board Certified Psychiatric Pharmacists.
- All portions of the BCPP content outline are covered within the preparatory products and the 7-year recertification product curriculum schedule.
- Selected faculty are qualified and skilled experts.
- Proven methods to planning, peer review, and implementation of recertification activities are consistently applied.
- Valid and reliable assessment/examinations are developed.

By participating in CPNP’s BCPP educational programs, you will stay up-to-date on current standards of care and be able to apply that knowledge in:

- Delivering patient-centered care
- Working as part of an interprofessional team
- Implementing quality improvement
- Developing and maintaining safe and effective medication use processes
- Obtaining, generating, and interpreting knowledge related to psychiatric pharmacy
- Providing comprehensive medication management for patients with psychiatric and comorbid disorders.

Read on to learn more about the BCPP preparatory and recertification products available to assist you in your continuing professional development journey.

Psychiatric Pharmacotherapy Review Book

The Psychiatric Pharmacotherapy Review Book is designed for use by individuals preparing to sit for the BCPP examination. CPNP surveys show that over 90% of successful BCPP candidates purchase the Review Book with 100% of them indicating that the Review Book was their primary study resource and a key tool to their certification success.

The Book Contains:

• Comprehensive outlines, written as individual chapters, of the most common psychiatric and neurologic conditions tested for in the BCPP exam.
• Consistently formatted chapters that include objectives, thorough content, comprehensive reference listings, and self-assessment questions with answer justifications.

2018 Details:

• Format: Self-study program; book mailed via USPS with e-book hosted in VitalSource Bookshelf
• Release Date: Available Now

BCPP Prep Series

The BCPP Prep Series includes 11 recorded review webinars aligned with the Review Book chapters. Additionally, a “last-chance” question and answer session with authors/presenters in the last weeks leading up to the spring and fall testing windows is offered. Save when you purchase both the Review Course Book and the BCPP Prep Series.

2018 Details:

• Format: Online self-study and conference call based activity
• Release Date: Available Now
• Q & A Conference Call: A one-hour call is scheduled in the final weeks leading up to the spring and fall testing windows

Psychiatric Pharmacotherapy Review Course

As a recertification product, the goal of the Review Course is to assist the practitioner in developing and maintaining contemporary knowledge and skills at the psychiatric pharmacy specialty level. The Review Course is not designed to develop more in-depth “subspecialty” knowledge. Course content is structured to provide a comprehensive review of the three psychiatric pharmacy domains specified by the Specialty Council in the current edition of the BPS Candidate’s Guide. Inclusion of the Review Course as part of the recertification program is critical in ensuring the BCPP has systematically reviewed and assessed his/her core knowledge in the psychiatric specialty practice.

Special Notes:

• BCPPs recertifying via continuing education are required to complete the Review Course a minimum of once during their 7-year recertification cycle.
• BCPPs recertifying via continuing education can use the Review Course a maximum of twice for recertification credit during their 7-year recertification cycle.
• The Review Book is revised and released every other year on the even year (2018, 2020...). Given this revision cycle, individuals cannot repeat the current edition of the Review Course for BCPP Recertification or ACPE credit.

2018 Details:

• Credit: Approved for 20 hours of ACPE and BCPP Recertification credit for recertifiers
• Release Date for 2018 Examination: January 9, 2018
• Examination Deadline: July 9, 2018

Easily Obtain Your 100 Hours of Recertification Credit with 215 Hours Available in a 7-Year Period

Literature Analysis

This programming involves review and analysis of current literature.

2018 Details:
- **Format:** Self-study; PDFs of selected literature
- **Credit:** Approved for 10 hours of ACPE and BCPP Recertification credit
- **Release Date:** March 7, 2018
- **Examination Deadline:** September 7, 2018

Clinical Application Series

Five hours of live recertification approved programming is presented and recorded on-site at the 2018 CPNP Annual Meeting. Registrants can choose to attend programming live on-site or complete the programming as a self-study component accessing speaker presentations and audio online at cpnp.org/mycpnp.

2018 Details:
- **Format:** Live at CPNP Annual Meeting (April 22-25, 2018 in Indianapolis, IN) or via self-study through access to recorded versions of the live presentations. Participants in Indianapolis must also be registered for the Annual Meeting.
- **Credit:** Approved for 5 hours of ACPE and BCPP Recertification credit
- **Release Date:** April 22, 2018 for live programming
- **Release Date:** May 15, 2018 for online access
- **Examination Deadline:** October 22, 2018

From Theory to Practice Case Series

This recertification product provides the opportunity to study a complex psychiatric case comorbid with a medical diagnosis and associated complex medication regimen. Focused on the topic of schizophrenia in 2018, participants will follow one patient through several encounters over a period of time and have the opportunity to apply evidence-based pharmacological and/or nonpharmacological treatment strategies and monitoring recommendations specific to patient needs and their pertinent medical, psychosocial, family, cultural and socioeconomic issues. An instructional webinar and comprehensive, referenced key extends the value of the activity long after completion.

- **Format:** Self-study online activity
- **Credit:** Approved for 5 hours of ACPE and BCPP Recertification credit

Psychopharmacology Pearls

This recertification product consists of four clinical review articles focused on single disorders, or on one or more distinct aspects of a single psychiatric, neurologic, or substance use disorder. Authored by leading experts in the field and hosted in CPNP’s peer-reviewed journal, The *Mental Health Clinician (MHC)*, these practical learning tools will offer therapeutic advice based on both evidence and longstanding clinical experience. These resource rich monographs will be fully referenced and highlight both the evidence base available and also controversial areas of clinical care to showcase strategies of clinical decision-making used by expert clinicians.

- **Format:** Self-study online activity
- **Credit:** Approved for 5 hours of ACPE and BCPP Recertification credit

How is Credit Reported to ACPE and BPS?

Participants successfully passing the required assessment/examination for each product obtain both ACPE and BCPP recertification credit. Credit is awarded in the year the assessment is completed. ACPE credit is reported through CPE Monitor while BCPP recertification credit is reported to BPS within 6 weeks of the examination deadline.
