The College of Psychiatric and Neurologic Pharmacists (CPNP) is proud to be the sole provider of preparatory and recertification products for the Board Certified Psychiatric Pharmacist. CPNP works hard to bring you the highest quality products possible by ensuring:

- Content is developed and managed by an editorial board of experienced Board Certified Psychiatric Pharmacists.
- All portions of the BCPP content outline are covered within the preparatory products and the 7-year recertification product curriculum schedule.
- Selected faculty are qualified and skilled experts.
- Proven methods to planning, peer review, and implementation of recertification activities are consistently applied.
- Valid and reliable assessment/examinations are developed.

By participating in CPNP’s BCPP educational programs, you will stay up-to-date on current standards of care and be able to apply that knowledge in:

- Delivering patient-centered care
- Working as part of an interprofessional team
- Implementing quality improvement
- Developing and maintaining safe and effective medication use processes
- Obtaining, generating, and interpreting knowledge related to psychiatric pharmacy
- Providing comprehensive medication management for patients with psychiatric and comorbid disorders.

Read on to learn more about the BCPP preparatory and recertification products available to assist you in your continuing professional development journey.

Preparatory Products for the BCPP Candidate

Psychiatric Pharmacotherapy Review Book

The Psychiatric Pharmacotherapy Review Book is designed for use by individuals preparing to sit for the BCPP examination. CPNP surveys show that over 90% of successful BCPP candidates purchase the Review Book with 100% of them indicating that the Review Book was their primary study resource and a key tool to their certification success.

The Book Contains:
• Comprehensive outlines, written as individual chapters, of the most common psychiatric and neurologic conditions tested for in the BCPP exam.
• Consistently formatted chapters that include objectives, thorough content, comprehensive reference listings, and self-assessment questions with answer justifications.

2019 Details:
• Format: Self-study program. The book is mailed via USPS (additional shipping fees apply) with e-book hosted in VitalSource Bookshelf. A digital-only delivery option is available for those seeking the e-book option only.
• Release Date: Available Now

BCPP Prep Series

The BCPP Prep Series includes 11 recorded review webinars aligned with the Review Book chapters. Additionally, a “last-chance” question and answer session with authors/presenters in the last weeks leading up to the spring and fall testing windows is offered. Save when you purchase both the Review Course Book and the BCPP Prep Series together.

2019 Details:
• Format: Online self-study and conference call based activity
• Release Date: Available Now
• Q & A Session: A one-hour call is scheduled in the final weeks leading up to both the spring and fall testing windows

Psychiatric Pharmacotherapy Review Course

As a recertification product, the goal of the Review Course is to assist the practitioner in developing and maintaining contemporary knowledge and skills at the psychiatric pharmacy specialty level. The Review Course is not designed to develop more in-depth “subspecialty” knowledge. Course content is structured to provide a comprehensive review of the three psychiatric pharmacy domains specified by the Specialty Council in the current edition of the BPS Candidate’s Guide. Inclusion of the Review Course as part of the recertification program is critical in ensuring the BCPP has systematically reviewed and assessed his/her core knowledge in the psychiatric specialty practice.

Special Notes:
• BCPPs recertifying via continuing education are required to complete the Review Course a minimum of once during their 7-year recertification cycle.
• BCPPs recertifying via continuing education can use the Review Course a maximum of twice for recertification credit during their 7-year recertification cycle.
• The Review Book is revised and released every other year on the even year (2018, 2020...). Given this revision cycle, individuals cannot repeat the current edition of the Review Course for BCPP Recertification or ACPE credit.

2019 Details:
• Credit: 20 hours of ACPE and BCPP Recertification credit for recertifiers
• Release Date for 2019 Examinations: January 9, 2019
• Examination Deadline: July 9, 2019

Easily Obtain Your 100 Hours of Recertification Credit with 215 Hours Available in a 7-Year Period

Literature Analysis

This programming involves review and analysis of current literature.

2019 Details:
• Format: Self-study with PDFs of selected literature
• Credit: 10 hours of ACPE and BCPP Recertification credit for recertifiers
• Release Date: March 6, 2019
• Examination Deadline: September 6, 2019

Clinical Application Series

Five hours of live, recertification approved programming is presented and recorded on-site at the 2019 CPNP Annual Meeting. Registrants can choose to attend programming live on-site or complete the programming as a self-study component accessing speaker presentations and audio online at cpnp.org/mycpnp.

2019 Details:
• Format: Live at CPNP Annual Meeting (April 7-10, 2019 in Salt Lake City, UT) or via self-study through access to recorded versions of the live presentations. Participants in Salt Lake City must also be registered for the Annual Meeting.
• Credit: 5 hours of ACPE and BCPP Recertification credit for recertifiers
• Release Date: April 8, 2019 for live programming
• Release Date: May 7, 2019 for online access
• Examination Deadline: October 8, 2019

From Theory to Practice Case Series

Study a complex psychiatric case comorbid with a medical diagnosis and associated complex medication regimen. Focused on the topic of Treatment Resistant Depression and Pregnancy, participants will follow one patient through several encounters and have the opportunity to apply evidence-based pharmacological and/or nonpharmacological treatment strategies and monitoring recommendations specific to patient needs and their pertinent history. Instructional webinars and a comprehensive, referenced key extends the value of the activity long after completion.

2018 Details:
• Release Date: September 19, 2018
• Examination Deadline: March 19, 2019

2019 Details:
• Release Date: September 26, 2019
• Examination Deadline: March 26, 2020

Psychopharmacology Pearls

This recertification product consists of four clinical review articles focused on single disorders, or on one or more distinct aspects of a single psychiatric, neurologic, or substance use disorder. Hosted in Mental Health Clinician (MHC), these practical learning tools will offer expert therapeutic advice based on both evidence and longstanding clinical experience. These resource rich monographs will be fully referenced and highlight both the evidence base available and also controversial areas of clinical care to showcase strategies of clinical decision-making used by expert clinicians. Topics for 2019 include PTSD guidelines, opioid use disorder and pregnancy, clozapine augmentation, and multiple sclerosis.

2018 Details:
• Release Date: November 7, 2018
• Examination Deadline: May 7, 2019

2019 Details:
• Release Date: November 7, 2019
• Examination Deadline: May 7, 2020

How is Credit Reported to ACPE and BPS?
Participants successfully passing the required assessment/examination for each product obtain both ACPE and BCPP recertification credit. Credit is awarded in the calendar year the assessment is completed. ACPE credit is reported through CPE Monitor within days of examination submission, while BCPP recertification credit is reported to BPS within 6 weeks after the examination deadline.
